The Business Roundtable

Business Roundtable is an association of chief executive officers of leading U.S. corporations. The Roundtable is committed to advocating public policies that ensure vigorous economic growth, a dynamic global economy, and the well-trained and productive U.S. workforce essential for future competitiveness. In general, the Roundtable focuses on issues it believes will have an effect on the economic well-being of the nation. The chief executives work on task forces on specific issues that direct research, supervise preparation of position papers, recommend policy, and lobby Congress and the Administration on select issues. The Roundtable seeks to identify issues early and tries to understand the problems faced by government as well as business. It has served as a catalyst in working with other groups to form coalitions and in stimulating individual business leaders to be more active in the public policy arena. <http://www.brtable.org/>
